Work Experience

LearningMate - *Sr. UI/UX Developer*

Apr 2015 - Mar 2023

- Worked on multiple projects including companies like Pearson, Elsevier, Imagine Learning and Wiley also worked on company internal products like Frost.

- Maintained customer satisfaction with forward-thinking strategies focused on addressing customer needs and resolving concerns.

- My role for the project is to work as a UI/UX developer with tools like HTML5 & CSS, Photoshop, Bootstrap, Bracket, NVDA, JAWS, GIT, JIRA.

Search Experience - *Sr. Web Designer*

Sep 2013 - Apr 2015

- My role in this company was to design the search engine for the company's products.

- Every company has a search engine website that resembles Google's.

- Tools used like Photoshop, Dreamweaver, Ruby on Rails, WordPress, Joomla and HTML

Vision Technology Services - *UI/UX Designer*

Feb 2010 - Aug 2013

- Produced original website layouts and content for client's use on both eCommerce and non-eCommerce websites.

- Based on an understanding of layout and aesthetic design principles, I created designs, concepts, and sample layouts.

- Preparing rough designs and illustrations, talking to clients about them, and making the required revisions.

- Developed graphics and layouts for product illustrations, logos, and websites mirroring company brand style.

- Ensured high-quality media productions while performing video and sound editing for a variety of advertisements.
